PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building scalable web applications using the MERN stack. Proficient in React, Node.js, and Express, with a strong focus on performance optimization and clean code practices. Strong foundation in Data Structures and Algorithms using Java, with a problem-solving mindset and interest in backend development.

TECHNICAL SKILLS

Frontend	HTML, CSS, JavaScript, React.js, Tailwind CSS
Backend	Node.js, Express.js
Database	MongoDB, MySQL
Programming	Java (Data Structures and Algorithms), C++
Core Concepts	REST APIs, Authentication, OOP, Database Design
Developer Tools	Git, GitHub, Postman, VS Code

EXPERIENCE

Software Developer Intern

January 2026 - June 2026

Trusting Brains IT Services Private Limited

On-Site

- Developed scalable full-stack features using React, Node.js, and Express, including REST APIs and dynamic UI components, improving application responsiveness and data handling efficiency by 25%.
- Implemented AI-based functionalities within applications, enabling automated responses and reducing manual effort in workflows by 30%.

Web Developer Intern

August 2025 - November 2025

Renu Sharma Healthcare and Education Foundation

Remote

- Built and maintained core modules of an Intern Management System, including task assignment, progress tracking, and role-based access, improving system usability by 20%.
- Designed and managed database and authentication workflows using Appwrite, enhancing data consistency and reducing user management errors by 25%.

Front-End Web Developer Intern

June 2024 - August 2024

IBM Skills Build Internship Program Hosted By CSRBox

Remote

- Led a team of 5 interns to develop a responsive educational platform, improving team productivity and delivery efficiency by 20%.
- Developed key frontend components and contributed to a marketplace feature, enabling dynamic product management and improving user interaction.

PROJECTS

AI Saathi (AI-Powered Career Platform) [Live \(Client Project\)](#)

- Built a scalable AI-driven platform for mock interviews using resume and job description inputs with automated evaluation and report generation.
- Developed AI-based resume builder (prompt-driven + JD-based) and dynamic interview flow with real-time feedback system.
- Designed a role-based HR panel for job posting and candidate management using React, Node.js, Express, and MySQL.

Liorr (Full Stack E-Commerce Platform) [Live \(Client Project\)](#)

- Developed a full-stack e-commerce application with dynamic product listings, cart functionality, and secure checkout flow.
- Built an admin panel for product management and real-time inventory updates.
- Integrated Razorpay payment gateway and optimized backend APIs, improving transaction reliability and system performance.

FoodZy (Food Recommendation and Price Comparison System) [Live](#)

- Developed a scalable web application that recommends food based on real-time weather data and user preferences using API integration.
- Implemented a price comparison system aggregating data from multiple platforms to enable cost-efficient decision-making.

EDUCATION

B.Tech CSE, B.M. Institute of Engineering and Technology (IPU Affiliated)
CGPA : 8.1

August 2022 - July 2026
